Technical Drawing

Features and Benefits

Simple, bevelled design

Clean lines offer a crisp, understated look for modern properties or commercial applications.

Weather performance & security

The frame construction is designed for weather resistance and can be specified with multi-point locking systems to meet relevant security standards.

French doors

Designed to provide a wide opening and compatible with security hardware options. Can be used for patios and balconies.

Multiple configuration options

Suitable for residential or commercial use, with colour-matched ancillaries available.

Maximum sash sizes

Residential: 1122mm (w) x 2122mm (h)

French Door: 1122mm (w) x 2122mm (h)
