Technical Drawing

Features and Benefits

Timber-look styling

Designed to reflect traditional sash window features with run-through horns, deep bottom rails and sculptured detailing.

Design and material benefits

Provides a traditional appearance with the material benefits of PVCu, including low-maintenance requirements and defined thermal performance based on tested U-values.

Slide & tilt operation

Both sashes slide vertically and tilt inwards to provide internal access for cleaning and controlled ventilation

Flexible design options

Available in a wide range of heritage colours and woodgrain foils, with options like Georgian bars or sash horns for a bespoke finish.

Maximum sash sizes

Vertical slider: 1400mm (w) x 2450mm (h)

Outer frames

146mm outer frame

Sash

50mm upper sash

64mm lower sash

105mm lower sash bottom rail
