

**The Frameline Texture Glass Pattern Presenter**

For privacy, pure style or to allow more light into internal rooms, decorative glass gives you a whole range of attractive options. In fact, Pilkington gives you a choice of a choice of different textured glass designs, together with our premium range of etched glass – from classic to contemporary, no one offers a bigger choice.

The advantages of Pilkington decorative glass are easy to see, too: it allows maximum light while maintaining privacy or obscuring unattractive views, and also forms an attractive decorative feature itself.

Here you'll find all our designs, reproduced to actual size so you can get a clear idea of how they'll look in your windows, with our clock images helping to show the different obscuration level of each pattern.

With new texture designs regularly added to offer even more possibilities, there really is no better choice of decorative glass for your home.
